

It was that little black phone.

Okay.

You did come to at 7:30 and said, "Have I said anything?" I said "No." You said, "What am I suppose to do?" You voiced that maybe Kathy and Velvet could advance. Just before 8:00 you sat up and ate your banana and drank your juice. I was trying to get up to go and hand it to you. It was like I was. I don't know. I kept. I know I wasn't asleep because I was fully aware of what you were doing. I even opened my eyes and could see, but I kept having this, I guess it was a dream. Every time I closed my eyes I could see you suffering. I could see there was a number of people here in this room, twelve or so, maybe more. You were in intense suffering, intense suffering. And as I looked around I could see it was many of your ladies, the people that were here. I could see that there was Annette, Paula, Carla, the ones that have already been trained. And I saw Ora, Kate, Margaret. It was as though we were all in a circle around you holding hands praying for you but it was a wide circle, it was a wide, giving you plenty of room. But you had us join hands praying for you in this circle. None of us was touching you at the time. I could see there was Velvet and Kathy. There was others. I saw Millie. I even saw Monica in the circle. And I saw Jen and Vicki and I saw Gloria and Colleen and I know there were others but I can't remember everyone.

And how were they clad?

We were all in robes, we were in white robes and you were in your white robe. You were taken near death but still able to talk and you were explaining to us what was happening with you and explaining that in your greater atonement there may be many present and I remember you said directly to Monica, "In your condition you wouldn't be present but you are allowed to be here to feel this all-consuming fire because the love of God has been sealed in your mind and heart." And you said, "And you have been praying, haven't you?" This was in my dream it wasn't that you were saying this. She was fully dressed. She was in her nightgown and bathrobe on. She had her underwear on too. And you told us you said, "There will come a time when all of you won't be present, some of you will be in the next room

praying for me and a group or a quorum will administer this renewal through the Lord on me, a comfort." It wasn't until I saw you again laying. It was as though you were laying in a room, it wasn't your room. It was in my mind I knew it was a very holy place. You were laying on a table with a sheet over it. It was like it was a velvet sheet. You were sweating blood. There was a group of us there. As you were sweating great drops of blood, everything was red. The white cloth was becoming red though it was still white in places. Then you had us wipe you off. You were able to say wipe me off then it was like you were taken down lower. You couldn't talk, you couldn't move, you couldn't - your breathing was stopping. It was a scene, a great, there wasn't a panic at all, a heavenly fire of peace, but realizing you were so low, almost gone, I quickly when they wiped the front of you down, I began to work on you. I don't remember who was there. There was five of us. I remember it was me and Millie and Paula. There were two others. I remember seeing them but I don't remember who they are now, that I saw in this dream. Then when I came to I kept, even through this experience I opened my eyes and could see you sitting up eating your banana, drinking your juice that you were still suffering.

But in your dream what did you do to each other to help me?

I did to Millie what you did to me this morning and then she did it to Paula. And I did it to - was it Annette? I did it to Annette. There was one other person there.

You can tell you were all alive in it.

Yes. And Annette did it to someone. I can't remember the other person. Anyway, I moved closer to you and put my arm around you. I could feel the fire flowing from you so strong and it made me excited. And yet I was still having this, I don't remember after that but I remember I saw something else but I don't remember now what it was.

But at 8:15 you said, "It feels like the Lord is holding me here that others may advance. You says, "Annette keeps coming to my mind and also Kathie and Velvet. You said, "Others may advance to at least receive the love of God sealed
